

5 August 2026

Dear Retailer,

Notification of Firstgas Distribution Pricing Effective 1 October 2026

Firstgas wishes to advise retailers of changes to its distribution pricing for the 2027 regulatory year (RY27) that will come into effect on 1 October 2026. This notice is provided in accordance with the notification requirements of both the Firstgas Use of System Agreement and relevant regulatory obligations.

Overview of Pricing Changes

For RY27, Firstgas will continue to apply the same Distribution Pricing Methodology and tariff structure that has been in place for the previous pricing year. No new tariff categories have been introduced, and no existing tariff categories have been removed.

The updated pricing reflects Firstgas' annual review process and is consistent with the regulatory framework that governs gas distribution services in New Zealand. Our distribution services remain regulated by the Commerce Commission under Part 4 of the Commerce Act 1986 and are subject to the Gas Distribution Services Default Price-Quality Path Determination. RY27 will be the first regulatory year of the five-year Gas DPP4 running from 1 October 2026 to 30 September 2031.
