

# Precision testing and calibration

## Trusted by industry experts

At the Firstgas Measurement Laboratory, we deliver precision calibration and testing services you can rely on. Our experienced team and meticulous processes ensure your equipment meets the highest standards of accuracy, reliability, and traceability giving you complete confidence in every result.

### We are proud to offer IANZ ISO/IEC 17025 accredited calibration services for:

- Volumetric Gas Meters
- Gas Metering Correctors
- Pressure Gauges and Pressure Transducers

### Our IANZ accredited capabilities include:

#### Volumetric Equipment (5.31)

- Flow Range: 0.25 m<sup>3</sup>/hr to 2500 m<sup>3</sup>/hr
- Verification of Gas Metering Correctors in accordance with in-house methods based on NZS 5259

#### Pressure and Vacuum (5.44)

- Pressure Range: 0 kPa to 14,000 kPa

### Additional Services:

- Portable gas detector calibration, service and repair. GMI Service Agent for New Zealand
- Temperature calibration
- Testing of electrical equipment

# Why choose us?

## Accredited for most key gas and pressure equipment calibration

IANZ ISO/IEC 17025 accredited for key gas and pressure equipment calibration—meeting stringent New Zealand and international standards for accuracy and quality.

## Decades of expertise

With over 40 years of industry experience, our skilled metrology technicians deliver expert guidance and dependable support helping you enhance the performance, compliance, and reliability of your equipment.

## Precision you can trust

Every calibration we perform is metrologically traceable, ensuring accuracy, repeatability, and reliability that meet the demands of critical applications and regulatory requirements.

## Custom services

Our team is committed to exceptional service and personalised support working closely with you to deliver calibration solutions tailored to your specific requirements.

## Fast turnaround times

We help you maximise uptime with fast, efficient service so your equipment is back in action without unnecessary delay.

## Trusted reference standards

Our laboratory operates with high-precision reference equipment, traceable to national and international standards, ensuring confidence in every result.
